

AIR-ELI0006 Wall Propeller

By Arteinmotion - Aeronautical Collection

Description

The Transitional AIR-ELI0006 Wall Propeller is a wall-mounted three-blade propeller complete with its central spinner, sourced from various vintage aircraft depending on availability. Its large-scale form preserves the distinctive proportions and aerodynamic character of the original aviation component. A mirror-polished finish enhances the sweeping blades and rounded spinner, creating a highly reflective sculptural presence. Measuring approximately spinner diameter and a depth of about, the AIR-ELI0006 brings authentic aviation character and strong visual impact to interior spaces. Made in Italy.

Finishes & Materials

Propeller: Metal
