

AIR-RECo166 Desk

By Arteinmotion - Aeronautical Collection

Description

The Transitional AIR-RECo166 Desk is crafted from an authentic Douglas DC-8 engine cowling, reimagining a genuine aviation component as a sculptural and functional desk. The cowling's aerodynamic profile is preserved and enhanced with a mirror-polished finish, while the black plexiglass desktop introduces a sleek, contemporary contrast. Available in RHF and LHF versions, the desk can be made using either side of the engine cowling to suit different layouts. Its proportions and functional design also make it well suited for use as a personal home desk, combining authentic aircraft history with a distinctive modern presence. Made in Italy.

Finishes & Materials

Engine Cowling: Metal

Desktop: Glass
