

AIR-TAV0113 Coffee Table

By Arteinmotion - Aeronautical Collection

Description

The Transitional AIR-TAV0113 Coffee Table is crafted from a Jacobs radial engine dating from the 1933–1970s period, reimagining an authentic aviation component as a bold functional centerpiece. The engine's radial configuration remains fully visible, showcasing the mechanical complexity and distinctive character of the original aircraft component. A mirror-polished finish is complemented by chromed and painted cylinders, emphasizing the details throughout the engine. An extra-clear glass top provides a practical surface while preserving an unobstructed view of the structure below, combining historic aviation engineering with a refined contemporary presentation. Made in Italy.

Finishes & Materials

Base Engine: Metal
