

141 (Small)

Description

A luminous cluster of sculptural glass forms, this suspension lamp transforms light into an atmospheric composition of organic movement and visual depth. Each translucent pendant is shaped around its central light source, creating softly illuminated glass volumes that capture reflections, textures, and a warm ambient glow. Suspended at varying heights, the individual elements come together as a striking floating installation.

Remote mounted power supplies recommended for ease of long term maintenance.
Installation to be done by certified personnel to ensure code compliance.

Each pendant comes standard with 118"1/8H of coaxial cable. Upcharge applies for lengths over 118"1/8H.
Cable length can be adjusted on site.
