

93

Description

A striking balance of transparency, texture, and illumination defines this suspended light fixture. Its spherical glass form becomes a luminous object in its own right, revealing an organic internal composition that gives the pendant remarkable depth and an almost geological sense of character.

93.1m requires a new build/suspended ceiling with remote mounted power supplies.
Remote mounted power supplies recommended for ease of long term maintenance.
Installation to be done by certified personnel to ensure code compliance.

The lamp comes standard with 118"1/8 of coaxial cable. Upcharge applies for lengths over 118"1/8.
Cable length can be adjusted on site.
