

93L

Description

Blurring the boundary between lighting and sculptural installation, this suspension lamp combines a luminous glass form with a fluid, expressive cable arrangement.

The organic textures within the glass create depth and visual richness, while the warm illumination gives the piece an atmospheric presence. The lamp introduces movement and artistic tension into the space, transforming an ordinary ceiling installation into a distinctive design statement.

93.Lm requires a new build/suspended ceiling with remote mounted power supplies.
Remote mounted power supplies recommended for ease of long term maintenance.
Installation to be done by certified personnel to ensure code compliance.

The lamp comes standard with 137"3/4 of coaxial cable. Upcharge applies for lengths over 137"3/4.
Cable length can be adjusted on site.
