

Marshmallow

Description

Soft, rounded forms give the Marshmallow sectional sofa its inviting character, creating a comfortable and relaxed atmosphere in contemporary living spaces. Designed as a versatile modular seating system, its generous, pillowy silhouette offers an effortless place to stretch out, relax, or gather with family and friends.

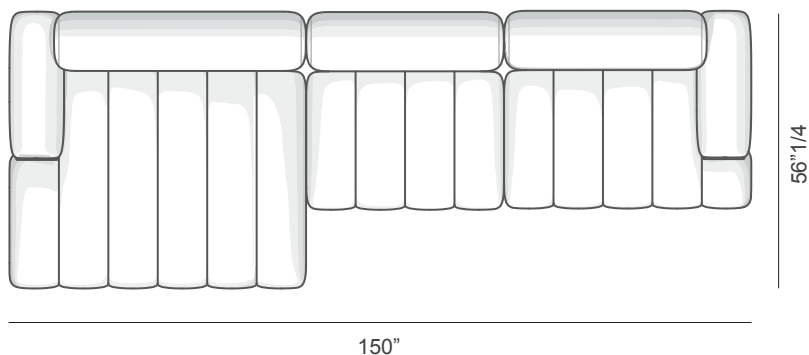

The structure combines chipboard and solid fir wood with a seat base supported by interwoven elastic belts. The seat is padded with double-density expanded polyurethane foam, while the backrest combines double-density expanded polyurethane and polyester fiber for lasting comfort and support. Its non-removable quilted fabric cover is finished with polyester fiber, emphasizing the sofa's soft, voluminous appearance.

The design rests on Wenge-tinted beech wood legs with non-slip detailing, while the front armrest panel features an embossed arch logo covered in leather or fabric. Combining generous comfort, durable construction, and a distinctive rounded silhouette, the Marshmallow sectional sofa is a stylish choice for modern living rooms and spacious lounge areas. Made in Italy.
