

Samet High

Design: Federica Biasi

Description

Samet High Sectional celebrates the art of refined versatility, combining meticulous attention to detail, sophisticated material research, and effortless modularity. Inspired by the serene elegance of Thai tradition, its distinctive oriental character is reinterpreted through a contemporary, highly configurable design. A thin quilted seat cushion, available in a contrasting fabric, enhances its inviting comfort while paying homage to the craftsmanship and cultural heritage behind its inspiration. Upholstered in polyurethane foam with a fixed topper and removable cover, Samet High embodies a harmonious dialogue between artisanal savoir-faire and industrial precision—an expression of timeless elegance without boundaries. Made in Italy.
