

Yoyo

Design: Marco Pozzoli

Description

Suspended with an elegant sense of balance, this luminous composition brings together circular forms, textured surfaces, and refined details to create a captivating interplay of light and rhythm.

Each disc features an organically textured surface that catches and diffuses the illumination, while a contrasting central ring adds a distinctive graphic character.

Fine suspension cables enhance the sense of lightness, allowing the luminous elements to appear almost weightless within the space.

Made in Italy.
