Messapo Bookholder

By Noii Studio for PRIMAR

Description

The Contemporary Messapo Bookcase is part of the Messàpo collection, developed by Pimar with Luca Paolo Vasa and Francesco Di Luzio of Noii Design Studio. Inspired by the dry stone walls traditionally found throughout the Salentine peninsula, the design translates their horizontal arrangement of squared blocks into a modular contemporary furniture system. The modules are designed to be intuitive and flexible, allowing them to be disassembled, reassembled, and rearranged according to the needs of the space. Configured as a bookcase, Messapo brings together natural stone, regional heritage, and adaptable functionality, making it suitable for interiors, hospitality environments, and shared spaces. Made in Italy.

Finishes & Materials

Structure: Stone
