New Generation Bookcase

By Giorgio Soressi

Description

The Modern New Generation Bookcase is characterized by fluid lines, a sculptural silhouette, and a glossy red lacquer finish that gives the piece a bold visual presence. Designed to capture attention, its expressive form brings a pop-contemporary character to the interior while maintaining a strong sense of modern design. The structure is made from recycled polystyrene with plywood reinforcement and is covered in glass resin, combining a distinctive construction with its high-gloss appearance. With its vibrant red finish and dynamic profile, New Generation functions as both a bookcase and a defining decorative element within modern interiors. Made in Italy.
