Tebe

Description

The Tebe Reclining Sectional combines refined contemporary design with exceptional comfort and versatile functionality. Built around a sturdy wooden frame and supported by variable-elasticity webbing, it offers a durable foundation for everyday relaxation. Its carefully engineered construction features non-deformable polyurethane foam and dual-density padding, enveloped in soft wadding to provide ergonomic support and a welcoming seating experience. The reclining functionality enhances its appeal, allowing you to enjoy moments of relaxation without compromising on style.

With its generous proportions and sophisticated silhouette, Tebe brings a welcoming yet elegant presence to the living space. Its thoughtful design balances comfort and practicality, making it an ideal choice for contemporary interiors where functionality and refined aesthetics go hand in hand.

Finishes & Materials

Structure: Wooden frame fitted with an elasticized webbing suspension, covered with stress resistant undeformable polyurethane foam.
Paddings: Double density polyurethane foam and padding.
Covering: In leather or fabric, not removable.
Optional: Rechargeable battery kit.

Size C

Specifications

Electric Reclining Mechanism
The electric reclining mechanism allows you to adjust the backrest, seat position, and footrest at the touch of a button. Featuring a Zero Wall system, the sofa can fully recline without needing to be moved away from the wall. The mechanism operates through a power connection to a standard wall outlet.

Optional Battery Kit for Recliner
An optional rechargeable Battery Kit for Recliner is available for purchase separately, allowing the electric reclining mechanism to operate wirelessly without requiring a permanent connection to a wall outlet. This provides greater flexibility in sofa placement while keeping power cables out of sight.
