Teramo

Description

The Teramo Reclining Lounge Chair combines contemporary design with everyday comfort, featuring a sleek silhouette defined by clean lines and balanced proportions. Its slender frame, upholstered in soft light gray fabric, creates a sophisticated and understated aesthetic, while the refined metal base adds a subtle architectural touch. The harmonious combination of materials and finishes gives the piece a distinctive presence without compromising its minimalist appeal.

Designed to offer both style and functionality, the Teramo Reclining Lounge Chair features an integrated reclining mechanism that allows for effortless adjustment and enhanced relaxation. Its carefully considered proportions and supportive structure provide a comfortable seating experience, making it an ideal addition to contemporary living spaces.

Finishes & Materials

Structure: Wooden frame fitted with an elasticized webbing suspension, covered with stress resistant undeformable polyurethane foam.
Paddings: Double density polyurethane foam and padding.
Covering: In leather, or in fabric not removable.
Feet: In solid wood with chromed trimming.

Dimensions

Size: 37”3/8W x 36”5/8D x 41”H

Specifications

Electric Reclining Mechanism

The electric reclining mechanism allows you to adjust the backrest, seat position, and footrest at the touch of a button. Featuring a Zero Wall system, the sofa can fully recline without needing to be moved away from the wall. The mechanism operates through a power connection to a standard wall outlet.

Optional Battery Kit for Recliner

An optional rechargeable Battery Kit for Recliner is available for purchase separately, allowing the electric reclining mechanism to operate wirelessly without requiring a permanent connection to a wall outlet. This provides greater flexibility in sofa placement while keeping power cables out of sight.
