Mettitutto One Way

Design: Stefano Boeri Architetti

Description

The Mettitutto One Way Storage Unit reinterprets the traditional Italian sideboard through an innovative and versatile design, conceived to elegantly organize the many personal accessories we use every day. Designed for the home, it features a sophisticated arrangement of rotating containers and an open shelving unit accessible from both sides, combining drawers and shelves in a refined interplay of wood, glass and leather.

This version includes seven functional elements, with drawers that open from one side only, complemented by a selection of practical accessories. A distinctive fusion of Italian design, thoughtful organization and refined craftsmanship, Mettitutto brings contemporary functionality to a timeless furniture concept. Made in Italy.
