Onda Small Suspension Lamp

Design: Giovanni Barbato

(Set of 3)

Description

Onda Small by Mazzega1946 brings the same wave-inspired design as the original Onda in a more compact size. Designed by Giovanni Barbato, it takes its cue from the circles that spread across water when a stone breaks the surface, translating that natural rhythm into a shade of stacked, concentric ridges.

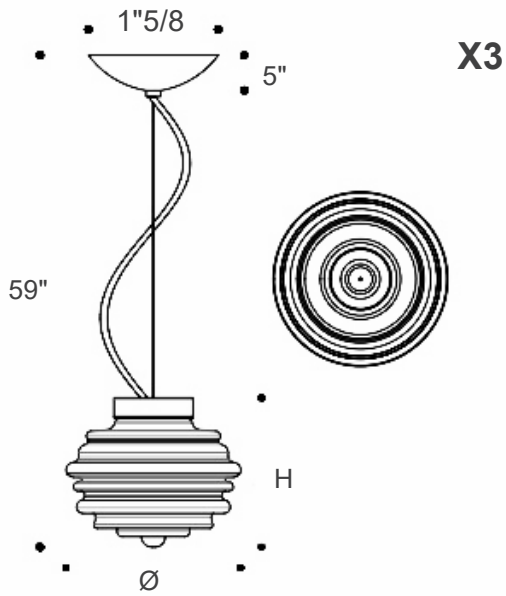

Each pendant has a rounded body that narrows into a small drop at the base and is capped by a metal top where the cord attaches. Light from the central source passes through the ridges, creating layered reflections and a soft sparkle.

Shown as a set of three pendants hung at different heights, Onda Small forms a lively composition above a dining table, kitchen island or entryway. Made in Italy.
