

Elas

Design: Manzoni & Tapinassi

Description

The charm of architecture combined with modern design; the Epsilon dining table by Manzoni & Tapinassi is a structure that links these two worlds. The base, with a specific graphic sign and the blunt top, enriched by a play of metal and wood, are its distinguishing features. The result is an item with a strong dynamic personality. The top is available in mocha oak or sucupira, and the metal base in micaceous brown, brass or titanium.

Finishes and materials

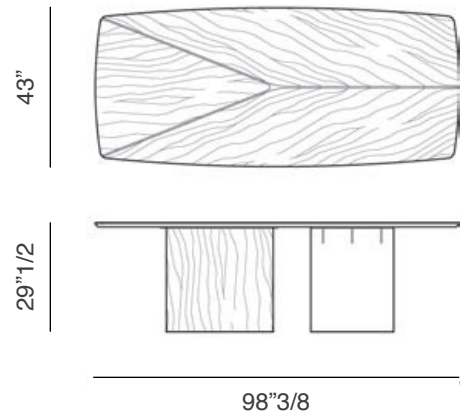

Base: Metal, finishes: micaceous brown, brass or titanium.

Top: Mocha oak or sucupira.
