

Juno

Design: Mauro Lipparini

Description

The Juno lounge chair's soft padding in the back and arms contrasts with the rigor of its thin structure. A long, fine line joins and separates the inner and outer sides of the chair. The zip runs all around the perimeter creating a fascinating connection between the sides. The frame rests on four metal feet which build light three-dimensional forms.

Finishes and materials

Structure: Rigid polyurethane foam.

Seat Height: 18" 1/8. **Armrest Height:** 23" 5/8.

Feet: Metal, finishes: micaceous brown or titanium.
