

# Summerset

*Design: Christoph Pillet*

## *Description*

The Summerset is a convenient coffee table in chromed or powder-painted steel, suitable for marine areas. Its structure is available in white, moka, gray, cyan and chrome, with HPL, aluminum, marble or ecomalta tops.

## *Finishes and materials*

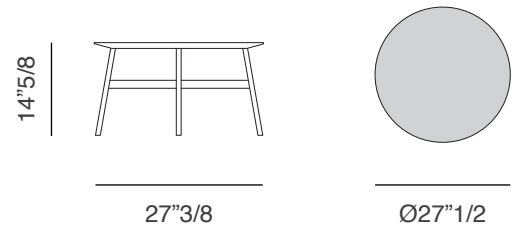

**Structure:** Chromed or powder-painted steel

**Top:** Hpl, painted aluminum or marble.

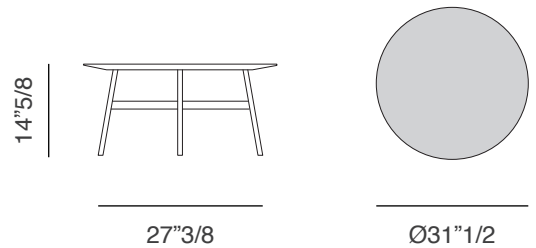

**Attention:** Constant outdoor exposure of marble tops (Dark Emperador, Carrara) in summer can cause possible variations in shade and colour, and in winter cracking caused by water and ice. For this reason we recommend using marble tops outdoors in protected places such as porches and patios, i.e. where the top is only indirectly exposed to the weather.

*(For more specifications, please refer to "Finishes & Materials")*

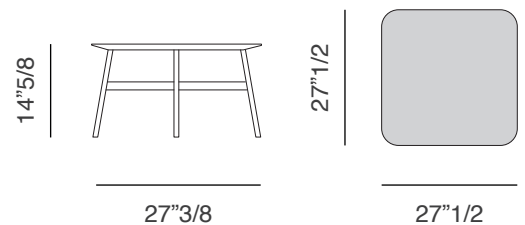

Summerset Round Coffee Table 1: Ø27"1/2 x 14"5/8H

Summerset Round Coffee Table 2: Ø31"1/2 x 14"5/8H
